3. FOREWORD BY THE CHAIRPERSON

Dear Stakeholders,

The past financial year marked a significant period of transition for the Brackenfell Business Improvement District (BBID). The Board and members were deeply saddened by the passing of our colleague and manager, Mr Cassie van Zyl, whose dedication and passion guided the BBID for many years. In the wake of this loss, the Board acted swiftly to ensure stability, continuity, and renewed direction. To this end, Geocentric Urban Management was appointed as the BBID's management company, under the full oversight of the Board, to administer and implement the operational programme on behalf of the Directors.

Despite this adjustment, the BBID continued to deliver on its core mandate of maintaining a safe, clean, and well-managed urban environment. Through structured partnerships with the City of Cape Town, SAPS, and private stakeholders, public safety and cleaning services remained uninterrupted. The CCTV camera network continued to play a vital role as both a deterrent and an investigative tool, while visible patrols, coordinated via the central control room, ensured consistent coverage of public spaces. These efforts contributed to a noticeable reduction in petty crime and unauthorised activity across the district. The establishment of direct communication channels between Bolt and Geocentric Public Safety further strengthened coordination and responsiveness.

Urban cleaning and maintenance activities remained focused on illegal dumping, graffiti removal, and the repair and reinstatement of damaged public infrastructure, in close cooperation with the City's service departments. In addition, the Board—together with Geocentric Urban Management—appointed a dedicated four-member cleaning and maintenance team, whose work has already produced visible improvements throughout the area.

Financially, the BBID remains on a sound footing, with audited statements reflecting prudent financial management, adherence to CID governance standards, and full compliance with the City's reporting framework.

Looking ahead, the BBID enters the new financial year with renewed capacity and purpose. The Board is committed to strengthening partnerships, expanding CCTV coverage where needed, and adopting a more data-informed approach to public safety and urban management.

On behalf of the Board, I extend our sincere thanks to the City of Cape Town's CID Branch, our service providers, property owners, and the Geocentric Urban Management team for their commitment and professionalism during this transitional period.

Thank you for your ongoing trust and support.

Sincerely,

Koos van der Merwe

Chairperson

Brackenfell Business Improvement District Non-profit Company

4. MANAGEMENT OVERVIEW

Dear Stakeholders,

The management period under review was marked by stabilisation and consolidation following the leadership transition early in 2025. Geocentric Urban Management, appointed by the BBID Board, assumed operational responsibility to ensure uninterrupted service delivery while re-establishing compliance, reporting, and governance frameworks as per the City of Cape Town's CID Policy.

1. Public Safety and CCTV Operations

Public safety remained the highest priority, comprising nearly 60% of the BBID's operational budget. The BBID maintained its integrated safety plan, deploying both foot and vehicle patrols with radio-linked communication to a 24-hour control room. Coordination with SAPS Brackenfell, Law Enforcement, and the City's Safety and Security Directorate allowed for rapid response to incidents, particularly in hotspot areas near the Brackenfell Boulevard and Old Paarl Road corridors. The CCTV system continued to provide key intelligence and situational awareness, with monitoring and analytics performed in partnership with the contracted security provider.

2. Cleaning and Urban Management

Cleaning teams operated daily to manage waste accumulation, illegal dumping, street sweeping and the upkeep of public spaces. Efforts focused on maintaining the area's high-visibility corridors, removing graffiti and illegal signage, and repairing minor infrastructure issues such as damaged kerbs, blocked stormwater drains, and broken bollards. The appointment of a dedicated four-member cleaning and maintenance team has proven highly effective, delivering visible improvements across the area.

3. Social and Economic Development

Through collaboration with Metamorfosi and other NGOs, the BBID facilitated work-based reintegration for several local participants. These initiatives supported the City's IDP Objective 15 — "Building a more spatially integrated and inclusive city." Awareness campaigns focused on civic pride, environmental cleanliness, and community safety, while social outreach aimed to reduce the number of vulnerable people living in public spaces.

4. Governance, Finance, and Communication

The Board continued to exercise oversight of all operational, financial, and compliance matters. Monthly management accounts were submitted to the Board and City of Cape Town, and the Annual Financial Statements for the year ended 30 June 2025 received an unqualified audit opinion. BBID's communication channels, including its website and newsletters, were revitalised to enhance transparency and encourage property owner participation.

5. Outlook

With the management contract of Geocentric Urban Management in place and clear reporting lines established, the BBID is entering its next phase with improved operational depth and accountability. The focus for the next financial year will include extending CCTV coverage, enhancing environmental projects, and strengthening community engagement with local businesses and property owners.

Thank you for your ongoing trust and support.

Sincerely,

Gene Lohrentz

Chief Executive Officer

Geocentric Urban Management as management company for the Brackenfell Business Improvement District

5. STATEMENT OF DIRECTORS' RESPONSIBILITY AND CONFIRMATION OF ACCURACY OF THE ANNUAL REPORT

We confirm that, to the best of our knowledge:

All information and amounts disclosed in the annual report are consistent with the annual financial statements audited by Haumann Rodger Bellville Incorporated.

The directors consider the annual report, taken as a whole, to be accurate, fair, balanced, and free of material omissions.

The Financial Statements, prepared in accordance with the applicable accounting standards give a true and fair view of the assets, liabilities, and financial position of the company.

The external auditors have been engaged to express an independent opinion on the annual financial statements.

Approved by the board on 29 August 2025 and signed on behalf by directors Abrie De Klerk and Leon van der Merwe:

Koos van der Merwe
Chairperson of the Board
29 August 2025

6. STRATEGIC OVERVIEW

6.1. Vision

The Brackenfell Business Improvement District (BBID) was formally established in 2014 providing supplementary public safety, urban maintenance, and urban cleaning services in close cooperation with the various City Departments as well as South African Police Services (SAPS).

The BBID is to foster a central business district that is accessible, inviting, and conducive to economic activity. The BBID strives to create an environment that is safe, clean, and attractive for workers, visitors, and clients, ensuring that the public realm supports the daily operations and growth of local businesses. Through close collaboration with the City of Cape Town, SAPS, and a range of public and private partners, the BBID delivers supplementary public safety, urban cleaning, and maintenance services that enhance the quality of life and working environment within the district.

Its mission extends beyond service delivery to include the protection of property values, the promotion of investment, and the facilitation of a sustainable and well-managed urban area that benefits all stakeholders.

The BBID continues to address the ongoing issues impacting the area, noting that the area remains a popular industrial node subjected to urban infrastructure damage, traffic congestion, littering and increased opportunities for crime. The BBID aims to continue to motivate property owners to enhance their investments and work closely with the BBID and the City of Cape Town.

6.2. Mission

The BBID envisions a vibrant, secure, and well-managed urban centre that attracts and retains business and retail operators while serving as a model for collaborative urban management. This vision is anchored in the belief that a clean, orderly, and safe environment forms the foundation for economic vitality and community pride. The BBID aims to maintain a district where businesses can thrive, public spaces are cared for, and people feel confident to live, work, and visit. By combining proactive safety measures, consistent maintenance, and social upliftment initiatives, the BBID seeks to build a resilient and appealing business environment that supports long-term economic growth and reflects the collective commitment of its property owners and partners.

Our strategy for promoting that vision is detailed in our Business Plan, available online at www.bbid.co.za

6.3. Our Goals

- Improve Public Safety significantly by proactive visible patrolling and cooperation with existing SAPS and City of Cape Town Law Enforcement efforts as well as other security service providers in the area.
- Creating a safe and clean public environment by addressing issues of maintenance and cleaning of streets, pavements and public spaces.
- Manage existing and new public infrastructure for the future benefit of all the users of the area.
- Protect property values.

- Attract new investment to the area.
- Support and promote social responsibility in the area.
- The sustained and effective management of the BBID area.

7. STATUTORY MANDATE

In terms of the CID By-law and s.22 of the Municipal Property Rates Act, the Brackenfell Business Improvement District NPC is tasked with considering, developing and implementing improvements and upgrades to the Brackenfell Business Improvement District area to supplement services provided by the CCT. The funding comes from additional rates collected by the CCT from BBID property owners and paid over to the company under the aforesaid legislation and may be supplemented by local fundraising initiatives. In expending these funds, the company is subject to oversight by the CCT in terms of the CID By-law and Policy, as well as public procurement principles enshrined in s. 217 of the Constitution of the Republic of South Africa, 1996 (the “Constitution”).

PART B: PERFORMANCE INFORMATION

1. SITUATIONAL ANALYSIS

1.1. Service delivery environment

Through the efforts of the BBID the area has been upgraded and maintained. During this term the BBID continues to address the impact of infrastructure theft and the associated potential for urban decay, littering and increased opportunities for crime that may impact the entire BBID area.

In the light of these challenges the BBID aims to continue to enhance the area and work closely with the City of Cape Town to upgrade its road surfaces and infrastructure.

1.2. Organisational environment

In this year, most of the day-to-day activities such as meetings, Board meetings, contact with community organisations and engagements with the City of Cape Town continued as planned and scheduled. Our focus remained on building the relationships and efforts amongst the various partners in the area including the SAPS and the Community Policing Forum. Close cooperation with the Ward Councillor, Sub council management and City officials to further improve service delivery has been the focus of this engagement.

2. STRATEGIC OBJECTIVES

Strategically, the BBID works in partnership with the City of Cape Town and the property and business owners towards the economic upliftment of the area by maintaining a level of safety and cleanliness to promote the use of and investment in the area. This is achieved through:

- Increased public safety
- Encouraging the maintenance and upgrading of private properties and public spaces in the area.
- Creating a clean and well-maintained public environment
- Assist with the management and solution to the issues of people living on the streets of Beaconvale.

3. Complaints Process

The BBID offers numerous channels for dealing with complaints. Formal complaints are lodged to the BBID management via email. The BBID management will act on the complaint including one or more of the following actions:

- Referring serious complaints to the COO and CEO of the management company and/or the Board
- Meeting with the complainant to understand the problem and address the issue
- Scheduling the necessary tasks or actions to resolve the matter by the BBID team

- Logging a service request with the City of Cape Town
- Communicating with the complainant on the actions taken
- Follow-up process and communication with the complainant until the matter is resolved
- Complaints are also received via website contact messages, email replies to newsletters and feedback via various social media platforms including dedicated WhatsApp groups which are monitored via the central control room.
- Telephonic complaints are also dealt with via the operational managers, or the central control room and the central control room number is visible on all patrol vehicles.

Most of the complaints relate to crime incidents or perceived criminal activity or relates to illegal dumping. Unless immediate response is required, safety and crime incidents are dealt with through our monthly meetings with the SAPS or through the adjustment of our public safety deployment plans. Illegal dumping is either cleared by the BBID cleaning team as soon as possible or if necessary, a service request is logged with the City of Cape Town and followed up until completed.

4. PERFORMANCE INFORMATION

4.1. PUBLIC SAFETY

4.1.1. To improve safety and security the BBID developed a comprehensive and integrated public safety plan for the area in conjunction with an appointed service provider. These actions include coordination and cooperation with:

- The South African Police Service
- Local Community Policing Forums
- Other existing security services in the area
- City of Cape Town Safety and Security Directorate
- Community organisations
- Other stakeholders

4.1.2. The BBID initiative and the inherent security situation of the area require the deployment of public safety patrol officers to adequately secure the public areas. Such a deployment can be expensive to implement and therefore the focus of the public safety plan is on roaming vehicles and foot patrols with the highest number of resources deployed during day-time operations between 06:30 and 17:30 when most businesses are operational in the area. Considering the contributions from other stakeholders such as the SAPS and safety and security efforts from the City of Cape Town the following public safety and security plan is proposed for the BBID.

4.1.3. This plan involves the deployment of Public Safety Patrol Officers (like the concept of Neighbourhood Safety Ambassadors) and public CCTV surveillance system to provide a reassuring presence on streets 7 days a week.

4.1.4. The public safety patrol officers are brightly uniformed ambassadors that help to maintain an inviting and comfortable experience by serving as additional “eyes and ears” for local law enforcement agencies. They are the face of the area. Typically, they get to know their neighbourhood and community very well and often serve as a first point of contact for emergency needs, help law enforcement to maintain order and provide an additional deterrent to crime through their consistent coverage and visibility. Public Safety Patrol Officers are equipped with two-way

radios and walk or patrol the area at key times of the day. They become an integral part of general law enforcement, often being the ones to identify public safety issues and form an extension of the SAPS and the local authority law enforcement. A small group of well-trained public safety patrol officers have proven to be very successful in securing an area through active engagement with all people in the precinct. Additional training of patrol officers is required to become knowledgeable on issues such as public safety and reporting, first aid and first-responder training, communication skills and homeless outreach services. Beyond basic training the Public Safety Patrol Officers develop a keen awareness and information of specific neighbourhood safety issues including drug trade, gang presence, poverty, social issues, criminal activity, and behaviour. If required patrol officers also provide walking escorts to people entering businesses early or staff leaving work late or elderly and vulnerable people feeling insecure.

4.1.5. The public safety plan includes:

- 2 x public safety patrol officers patrolling the area on a bicycle, Monday – Friday during the daytime (06:30 – 17:30).
- 2 x public safety officers patrolling the area per foot, Monday – Friday during the daytime (06:30 – 17:30).
- 1 x public safety patrol vehicle patrolling the area on a 24/7 basis.
- Radio communications network.
- Centralised Control Room and CCTV monitoring
- CCTV camera network comprising of cameras and monitoring as set out in the implementation plan time scale.

4.1.6. Assistance from the City of Cape Town

4.1.7. The BBID will further enhance its public safety initiative through close cooperation with the Safety and Security Directorate of the City of Cape Town to link in with their initiative to support a safer public environment.

4.1.8. The activities of the Public Safety Officers and patrols are measured through a comprehensive management system for the logging of public safety incidents. The logging, mapping and analysis of these incident reports informs the adjustment of the public safety deployment plan for the area. The deployment plan is revised monthly.

Public Safety Performance Information

ACTION STEPS	KEY PERFORMANCE INDICATOR	FREQUENCY per year	Comments
1. Identify the root causes of crime in conjunction with the SAPS, Local Authority and existing Public Safety service using their experience as well as available crime and public safety incident statistics.	Incorporate in Public Safety Management Plan	Ongoing	

ACTION STEPS	KEY PERFORMANCE INDICATOR	FREQUENCY per year	Comments
2. Determine the Crime Threat Analysis of the CID area in conjunction with the SAPS, determine strategies by means of an integrated approach to improve public safety, identify current Public Safety and policing shortcomings and develop and implement effective public safety strategy	Incorporate in Public Safety Management Plan	Ongoing	
3. Deploy Public Safety resources accordingly and effectively on visible patrols. Public Safety personnel and patrol vehicles to be easily identifiable	Effective Safety and Public Safety patrols in the BBID measured by: Daily attendance registers Incident reports Patrol vehicle tracking reports Patrol vehicle patrol logs	Ongoing	Public safety officers are inspected and posted to their patrols daily. The Public safety officer's performance is measured on a weekly basis using the incident reports submitted via the incident reporting system and the public safety WhatsApp groups.
4. Assist the police through participation by BBID in the local Police sector crime forum.	Incorporate feedback and information in Public Safety and safety initiatives of the BBID Report on any Public Safety information of the BBID to the CPF	Monthly	
5. Monitor and evaluate the Public Safety strategy and performance of all service delivery on a quarterly basis	Report findings to the BBID Board with recommendations where applicable	Quarterly	
6. Deploy CCTV cameras monitored by a CCTV Control Room	Effective use of CCTV cameras through monitoring	Ongoing	

IMPROVE AND CONTINUALLY ASSESS ALIGNMENT OF RESOURCES WITH SAFETY NEEDS OF LOCAL COMMUNITY

Public Safety Incidents Graph

From 1 July 2024 to 30 June 2025 the patrol vehicle logged the following number of patrol kilometres:

Patrol Vehicle 1: 34 471 km

Total: 34 471 km

- The most significant challenge to the public safety operations in BBID remains the limited resources.
- The BBID's overall strategy to address the challenge is based on a multi-disciplinary approach which includes the following measures:
 - Deploy CCTV cameras to enhance the deployment of the Public Safety Operations.

4.1.9. Resource Allocation

- During the reporting period the BBID deployed one public safety vehicle and two public safety bicycles and two public safety foot patrollers during the daytime and two public safety officers in one patrol vehicle at night during weekdays. On weekends there is one patrol vehicle.
- A budget of R 2 428 303 was expended on the Public Safety deployments for the year and an additional R 87 165 was allocated for CCTV monitoring.

Actual expenditure compared with the projected expenditure for (1) the financial year preceding the current reporting period and (2) the financial year that is the subject-matter of this annual report (referred to below as "2024/2025")

Service/ Project components	2023/2024			2024/2025		
	Projected Expenditure	Actual Expenditure	(Over)/Under Expenditure	Projected Expenditure	Actual Expenditure	(Over)/Under Expenditure
Public Safety	R 2 755 000	R 2 385 579	R 369 421	R 2 439 000	R 2 428 303	R 10 697
CCTV Monitoring	R 102 000	R 79 800	R 22 200	R 87 165	R 87 165	-
CE: CCTV/LPR Cameras	-	-	-	R 200 000	R 19 550	R 180 450

- The amount of R 180 450 allocated for the CCTV / LPR was carried over to the 2025/26 financial year to allow for the project's completion.

4.2. MAINTENANCE AND CLEANSING SERVICES

4.2.1. The BBID deployed the services of a dedicated public cleaning service to provide the supplementary service or additional cleaning services required in their area. To establish the most effective cleaning plan the strategy supports existing waste management services, identify specific management problems and areas and assist in developing additional waste management and cleaning plans for the area.

4.2.2. The plan was executed by establishing a small team to:

- Decrease waste and grime in the area through a sustainable cleaning programme.
- Provide additional street sweeping, waste picking and additional refuse collection in all the public areas.

- Removal of illegal posters, graffiti and stickers from non-municipal infrastructure.

4.2.3. Urban infrastructure was improved by:

- Developing and implementing a plan to identify and monitor the status of public infrastructure such as roads, pavements, streetlights, road markings and traffic signs.
- Coordinating actions with the relevant City of Cape Town's departments to address infrastructure defects. This was done through specific liaison with departments and officials in addition to the reporting and monitoring of repairs identified by the CID Manager.
- After a base level of repair and reinstatement was achieved the BBID team implemented local actions to correct minor issues.

4.2.4. In addition, the urban management team, in consultation with the relevant City Departments assisted with:

- Graffiti removal from non-municipal infrastructure where possible.
- Removal of illegal posters and pamphlets from public spaces and non-municipal infrastructure as noted in the BBID Implementation Plan.
- Painting of road markings and correction of road signs.
- Greening, tree pruning and landscaping.
- Kerb, bollard and paving reinstatements.
- Storm water drain cleaning where required.

4.2.5. The cleaning contingent deployed teams in various areas and rotated through the BBID. Some of the team members were recruited from homeless people seeking gainful employment and on-the-job training was provided to improve their skills and utilisation. The cleaning and urban maintenance team includes:

- 3 x urban management workers per day. The shifts run Monday to Friday
- 1 x urban management supervisor

Cleansing and Urban Maintenance Performance Information

PROVIDE A CLEANER PUBLIC SPACE

ACTION STEPS	KEY PERFORMANCE INDICATOR	FREQUENCY per year	Comments
1. Develop cleaning strategy to guide delivery from appointed service delivery provider	Measure effectiveness through Cleaning Statistics	Monthly	
2. Provide (on own initiative or in collaboration with CCT) additional litter bins in public spaces.	Record and Report findings to the BBID Board and the CCT with recommendations where applicable	Annually

4.2.6. Resource Allocation

- In addition to the deployment of the day-time cleaning teams, the BBID has four day-time cleaners and are required to work one Saturday per month.
- *Actual expenditure compared with the projected expenditure for (1) the financial year preceding the current reporting period and (2) the financial year that is the subject-matter of this annual report (referred to below as "2024/2025")*

Service/ Project components	2023/2024			2024/2025		
	Projected Expenditure	Actual Expenditure	(Over)/Under Expenditure	Projected Expenditure	Actual Expenditure	(Over)/Under Expenditure
Cleaning Services	R 235 000	R 245 515	- R 26 420	R 318 929	R 288 133	R 30 796
Environmental Upgrading	-	R 26 420	- R 26 420	-	-	-
Urban Management	R 10 000	R 9 509	R 491	R 10 000	R 9 352	R 648
Centre Island Beautification	-	-	-	R 105 000	-	-

- The amount of R 105 000 allocated for the Centre Island Beautification Project was carried over to the 2025/26 financial year to allow for the project's completion.

4.3. SOCIAL DEVELOPMENT SERVICES

4.3.1. The social issues of the area are varied and complex and no single plan or approach will adequately address these issues. The BBID coordinates its social intervention actions with the various NGO's and social improvement organisations in the area to assist in the development of a comprehensive strategy for addressing social issues in conjunction with the City of Cape Town, all relevant social welfare organisations and institutions. Social intervention and development can only be achieved by offering unemployed and/or homeless people an alternative.

4.3.2. Through the development of pro-active programmes to create work opportunities for homeless people certain NGOs have presented the opportunity to direct their work programmes to include cleaning and maintenance services to CIDs. These partnerships between CIDs and NGOs create a more cost-effective approach to the provision of a supplementary service to the municipal cleaning services when large area clean-ups or specific maintenance tasks are required.

4.3.3. Resource Allocation

- Although the social upliftment programme for the BBID could not be executed as intended, several temporary job opportunities were created for cleaning and maintenance staff members recruited from the Metamorfosi.

Actual expenditure compared with the projected expenditure for (1) the financial year preceding the current reporting period and (2) the financial year that is the subject-matter of this annual report (referred to below as “2024/2025”)

Service/ Project components	2023/2024			2024/2025		
	Projected Expenditure	Actual Expenditure	(Over)/Under Expenditure	Projected Expenditure	Actual Expenditure	(Over)/Under Expenditure
Social Services	R 6 000	R 4 000	R 2 000	R 20 600	R 15 163	R 5 437

PART C: CORPORATE GOVERNANCE

1. APPLICATION OF KING IV

- 1.1.** In recognition of the fact that the NPC is entrusted with public funds, particularly high standards of fiscal transparency and accountability are demanded. To this end, the NPC voluntarily subscribes to the King Code of Corporate Governance for South Africa 2016 ("King IV"), which came into effect on 1 April 2017. King IV contains a series of recommended reporting practices under the 15 voluntary governance principles. The practices applied by the company are explained in this part (Part C), of the Annual Report. In determining which reporting practices to apply, the board took account of, among other things, the CCT's policy, and the reporting protocols appropriate to a non-profit entity such as the NPC.
- 1.2.** Compliance with King IV for the reporting period. The board is satisfied that the NPC has complied with the applicable principles set out in King IV during the period under review, to the extent reasonably possible, are provided fully below.

2. GOVERNANCE STRUCTURE

2.1. Board Composition

The Board is satisfied that the Board of the NPC is compiled by a representative group of directors representing the interests of the varied property owner groups within the BBID footprint. The Board did not appoint any committees during the reporting period due to the size of the Board.

Koos van der Merwe - Chairperson	
Portfolio	Cleansing & Maintenance
Appointment Date	11/08/2014
Abrie De Klerk - Director	
Portfolio	Marketing
Appointment Date	30/06/2015
Pieter Syfert - Director	
Portfolio	Social Upliftment
Appointment Date	11/06/2024
Leon van der Merwe - Director	
Portfolio (Co-opted)	Public Safety
Appointment Date	11/06/2024
Keimpe Weistra – Director (Co-opted)	
Portfolio	Finance
Appointment Date	15/10/2025 (Pending Approval)

2.2. Board Observer

In terms of the By-law, city councillors are designated as “board observers” by the Executive Mayor to conduct oversight of board functions. This oversight entails receiving board documentation and attending board meetings, with a view to ensuring that the company duly executes its statutory mandate. The Executive Mayor has appointed Cllr. Brenda Hansen as board observer.

2.3. Appointment of the board

An Annual General Meeting is held every year to review the performance of the CID and to confirm the mandate of the members. The AGM provides the opportunity to elect new directors to serve on the board of the NPC. Elected Board members take responsibility for the various portfolios in the company and regular board meetings allow the directors to review current operations and apply corrective measures as required.

2.4. Overview of the board’s responsibilities

The Board oversees the day-to-day delivery of the additional services according to the Business Plan. In executing this task, the Board:

- identifying strategies to implement the NPC’s business plan in a manner that ensures the financial viability of the company and takes adequate account of stakeholder interests.
- monitoring compliance with applicable legislation, codes, and standards.
- approving the annual budget.
- overseeing preparation of and approving the annual financial statements for adoption by members.
- exercising effective control of the NPC and monitoring management’s implementation of the approved budget and business plan

2.5. Board Charter

The board is satisfied that it has fulfilled its responsibilities under the board charter during the period under review.

2.6. Director Independence

During the period under review, the board formally assessed the independence of all non-executive directors, as recommended by King IV. The board has determined that all the non-executive directors, including the chairperson, are independent in terms of King IV’s definition of “independence” and the guidelines provided for in principle 7.28.

2.7. Board Committees

The Board did not appoint any committee during the reporting period.

2.8. Attendance at board and committee meetings

The Board of Directors met regularly throughout the year, in line with the requirements of the City of Cape Town's CID Policy. Meetings were convened at least once every three months, ensuring sound governance, effective oversight, and accountability in driving the implementation of the Business Plan and service delivery priorities.

3. ETHICAL LEADERSHIP

Directors are required to maintain the highest ethical standards. To this end, the NPC has adopted a code of conduct for directors, which governs their ethical roles and responsibilities, and provides guidelines on the applicable legal, management and ethical standards.

The Code is available online at www.bbid.co.za

Upon appointment, directors must declare in writing to the chairperson any private interests which could give rise to a potential conflict of interest. These declarations are kept in a register and are regularly updated.¹

Directors must further disclose in writing to the chairperson if any matter before the board gives rise to a potential conflict of interest. Such a director must recuse himself or herself from consideration and deliberation of, or voting on, the matter giving rise to the potential conflict of interest.

Transparency in personal or commercial interests ensures that directors are seen to be free of personal or business relationships that may materially interfere with their ability to act independently and in the best interests of the NPC.

The board is satisfied that the directors have complied with their duties in terms of the Code during the year under review. No changes to the directors' respective declarations were recorded which could potentially impact their independence.

4. BOARD OVERSIGHT OF RISK MANAGEMENT

4.1. Risk management policy

The BBID board is committed to maintaining a comprehensive risk management policy aimed at safeguarding the BBID's assets and ensuring responsible use of public funds in alignment with its objectives. The risk management policy is integrated into the company's operations and management processes, overseen by the board.

Key elements of the risk management strategy include:

1. **Board Oversight:** The board has the ultimate responsibility for risk management and ensures that a sound internal control system is in place. The board regularly considers risk at its board meetings to ensure that key risk areas are being adequately addressed and monitored by the appointed management company.
 2. **Code of Conduct:** As part of the risk management framework, the BBID adheres to a strict code of conduct, ensuring confidentiality and ethical handling of sensitive information.
-

3. **Internal Controls:** The system of internal controls includes:

- **Performance Targets:** These are established at each board meeting, with actual performance being tracked on a quarterly basis with every board meeting set out as per the CID policy and implementation plan. This process helps identify areas of concern and mitigates risk through proactive monitoring.
- **Risk Register:** A detailed risk register is maintained and reviewed by the appointed management company as set out in the implementation plan. This register identifies the BBID's operational risks, assesses the likelihood and potential impact of each risk, and outlines mitigation strategies.

This approach ensures that risk is addressed in a structured and consistent manner, enhancing the BBID ability to achieve its objectives while safeguarding its assets and operations. The board's continuous engagement in the risk management process provides an additional layer of assurance that all significant risks are being appropriately managed.

4.2. Effectiveness of risk management

During the year under review, the appointed management company of the Brackenfell Business Improvement District NPC (BBID) conducted thorough risk assessments to evaluate the effectiveness of its risk management policy and strategy.

The board is satisfied with the adequacy of the systems and processes in place to govern and manage risks. The risk assessments were carried out in accordance with the BBID's established risk framework, ensuring that operational risks were continually identified, monitored, and mitigated. These assessments also included an evaluation of any emerging risks, ensuring that the risk register remained updated and reflective of the company's current risk profile.

Overall, the board is confident that it has fulfilled its responsibilities in managing and mitigating risks and that the existing systems provide robust support for the company's risk governance objectives.

4.3. Key business risks and opportunities

During the reporting period, the board identified several material risks that could impact the ability of Brackenfell Business Improvement District (BBID) to achieve its strategic objectives. The key risks identified and monitored include:

- Manage the funds and bank accounts of the NPC responsibly.
- The potential impact of illegal occupation of vacant municipal land.
- The potential impact of informal structures and occupation of the railway line.
- Theft and/or vandalism of municipal infrastructure.
- Deterioration of road infrastructure.

The board confirms that no unexpected or unusual risks arose during the period under review. Furthermore, all risks were managed within the pre-determined risk tolerance levels, and appropriate mitigation strategies were applied.

In future reporting periods, the board and the appointed management company plan to enhance its risk management processes by incorporating more frequent risk assessments, expanding internal audit functions, and integrating risk management practices more closely with strategic decision-making processes. This will ensure that the organization remains agile and responsive to emerging risks and deliver the supplementary service to the members of the Brackenfell Business Improvement District.

5. ACCOUNTABILITY

5.1. Performance reviews

During the reporting period, the BBID board conducted a comprehensive performance review of its governance structures and operations. The assessment covered the effectiveness of the appointed management company, focusing on strategic oversight, decision-making, and risk management. Based on the review, the board is satisfied that the appointed management company has performed its duties effectively and met its responsibilities in overseeing the BBID's performance and achieving its strategic goals.

5.2. Delegated limits of authority

The board has appointed a management company to ensure smooth day-to-day functioning of the BBID. These delegations of authority include decision-making in areas such as operational management, and execution of strategic initiatives.

The board has reviewed these delegations during board meetings for period under review to ensure that there is an appropriate balance between governance oversight and operational efficiency. It confirmed that the existing delegations are appropriate, maintaining a clear distinction between the board's governance responsibilities and management's operational functions. This structure allows for agile decision-making without compromising the board's overall accountability.

5.3. Supplier Code of Conduct

The board and appointed management company undertook a review of the supplier code of conduct to ensure alignment with the company's ethical standards and risk management frameworks. The board and appointed management company will review all suppliers that are required to comply with the organization's standards concerning ethical behaviour, sustainability, and legal compliance. The board emphasized the importance of maintaining these standards to mitigate risks associated with supply chain practices, such as performance issues, reputational risks, and non-compliance with regulatory requirements. The BBID has a procurement policy which outlines the procurement of goods and services for the BBID. The procurement process is the acquisition process (purchasing) of goods and/or services. The procurement process is meant to ensure that the BBID's needs are met for the best possible cost in terms of quality, time, and other relevant factors to support the BBID's operations.

Annual Financial Statements for the year ended 30 June 2025

Directors' Responsibilities and Approval

The directors are required by the Companies Act of South Africa, to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements fairly present the state of affairs of the company as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with the International Financial Reporting Standard for Small and Medium-sized Entities. The external auditors are engaged to express an independent opinion on the annual financial statements.

The annual financial statements are prepared in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the directors set standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors have reviewed the company's cash flow forecast for the year to 30 June 2026 and, in the light of this review and the current financial position, they are satisfied that the company has or has access to adequate resources to continue in operational existence for the foreseeable future.

The external auditors are responsible for independently auditing and reporting on the company's annual financial statements. The annual financial statements have been examined by the company's external auditors and their report is presented on page 5 - 6.

The annual financial statements set out on pages 7 to 16, which have been prepared on the going concern basis, were approved by the board of directors on _____ and were signed by:

AJ de Klerk

KL van der Merwe

Brackenfell Business Improvement District NPC

(Registration number: 2014/155124/08)

Annual Financial Statements for the year ended 30 June 2025

Directors' Report

The directors have pleasure in submitting their report on the annual financial statements of Brackenfell Business Improvement District NPC for the year ended 30 June 2025.

1. Incorporation

The company was incorporated on 11 August 2014 and obtained its certificate to commence business on the same day.

2. Nature of business

The company provides supplementary public safety, cleansing, maintenance services, environmental development, social development and communications in the Brackenfell area.

There have been no material changes to the nature of the company's business from the prior year.

3. Review of financial results and activities

The annual financial statements have been prepared in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa. The accounting policies have been applied consistently compared to the prior year.

4. Auditors

Haumann Rodger Bellville Incorporated continued in office as auditors for the company for 2025.

At the AGM, the shareholders will be requested to reappoint Haumann Rodger Bellville Incorporated as the independent external auditors of the company and to confirm Mr W Pienaar as the designated lead audit partner for the 2026 financial year.

5. Secretary

The company secretary is AJ de Klerk.

6. Directors

The directors in office at the date of this report are as follows:

AJ de Klerk
JA van der Merwe
KL van der Merwe
PJ Syfert

There have been no changes to the directorate for the period under review.

7. Events after the reporting period

The directors are not aware of any material event which occurred after the reporting date and up to the date of this report.

8. Going concern

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the annual financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

Independent Auditor's Report

To the Management of Brackenfell Business Improvement District NPC

Opinion

We have audited the annual financial statements of Brackenfell Business Improvement District NPC (the company) set out on pages 7 to 16, which comprise the statement of financial position as at 30 June 2025; and the statement of comprehensive income; the statement of changes in equity; and the statement of cash flows for the year then ended; and notes to the annual financial statements, including a summary of significant accounting policies.

In our opinion, the annual financial statements present fairly, in all material respects, the financial position of Brackenfell Business Improvement District NPC as at 30 June 2025, and its financial performance and cash flows for the year then ended, in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Annual Financial Statements section of our report. We are independent of the company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Brackenfell Business Improvement District NPC annual financial statements for the year ended 30 June 2025", which includes the Directors' Report as required by the Companies Act of South Africa and the supplementary information as set out on page 17. The other information does not include the annual financial statements and our auditor's report thereon.

Our opinion on the annual financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the annual financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

Responsibilities of the Directors for the Annual Financial Statements

The directors are responsible for the preparation and fair presentation of the annual financial statements in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Annual Financial Statements

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Annual Financial Statements for the year ended 30 June 2025

Accounting Policies

1. Basis of preparation and summary of significant accounting policies

The annual financial statements have been prepared on a going concern basis in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities, and the Companies Act of South Africa. The annual financial statements have been prepared on the historical cost basis, and incorporate the principal accounting policies set out below. They are presented in South African Rands.

These accounting policies are consistent with the previous period.

1.1 Significant judgements and sources of estimation uncertainty

Critical judgements in applying accounting policies

Management did not make critical judgements in the application of accounting policies, apart from those involving estimations, which would significantly affect the annual financial statements.

1.2 Property, plant and equipment

Property, plant and equipment are tangible assets which the company holds for its own use or for rental to others and which are expected to be used for more than one period.

Property, plant and equipment is initially measured at cost.

Cost includes costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Expenditure incurred subsequently for major services, additions to or replacements of parts of property, plant and equipment are capitalised if it is probable that future economic benefits associated with the expenditure will flow to the company and the cost can be measured reliably. Day to day servicing costs are included in profit or loss in the period in which they are incurred.

Property, plant and equipment is subsequently stated at cost less accumulated depreciation and any accumulated impairment losses, except for land which is stated at cost less any accumulated impairment losses.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the company.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Other fixed assets	Straight line	5 years
Motor vehicles	Straight line	5 years
Office equipment	Straight line	5 years
IT equipment	Straight line	3 years
Security systems removable	Straight line	5 years
Other property, plant and equipment	Straight line	4 years

When indicators are present that the useful lives and residual values of items of property, plant and equipment have changed since the most recent annual reporting date, they are reassessed. Any changes are accounted for prospectively as a change in accounting estimate.

Impairment tests are performed on property, plant and equipment when there is an indicator that they may be impaired. When the carrying amount of an item of property, plant and equipment is assessed to be higher than the estimated recoverable amount, an impairment loss is recognised immediately in profit or loss to bring the carrying amount in line with the recoverable amount.

Annual Financial Statements for the year ended 30 June 2025

Accounting Policies

1.2 Property, plant and equipment (continued)

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its continued use or disposal. Any gain or loss arising from the derecognition of an item of property, plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item, is included in profit or loss when the item is derecognised.

1.3 Financial instruments

Initial measurement

Financial instruments are initially measured at the transaction price (including transaction costs except in the initial measurement of financial assets and liabilities that are measured at fair value through surplus or shortfall) unless the arrangement constitutes, in effect, a financing transaction in which case it is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial instruments at amortised cost

These include loans, trade receivables and trade payables. They are subsequently measured at amortised cost using the effective interest method. Debt instruments which are classified as current assets or current liabilities are measured at the undiscounted amount of the cash expected to be received or paid, unless the arrangement effectively constitutes a financing transaction.

At each reporting date, the carrying amounts of assets held in this category are reviewed to determine whether there is any objective evidence of impairment. If there is objective evidence, the recoverable amount is estimated and compared with the carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in surplus or shortfall.

1.4 Tax

Tax expenses

Tax expense is recognised in the same component of total comprehensive income or equity as the transaction or other event that resulted in the tax expense. The NPC meets the criteria for the exemption under section 10(1)(d)(iii) of the Income Tax Act.

Annual Financial Statements for the year ended 30 June 2025

Accounting Policies

1.5 Impairment of assets

The company assesses at each reporting date whether there is any indication that property, plant and equipment or intangible assets or goodwill or investment property on the cost model may be impaired.

If there is any such indication, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount, but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset (or group of assets) in prior years. A reversal of impairment is recognised immediately in profit or loss.

1.6 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as leave pay and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

1.7 Provisions and contingencies

Provisions are recognised when the company has an obligation at the reporting date as a result of a past event; it is probable that the company will be required to transfer economic benefits in settlement; and the amount of the obligation can be estimated reliably.

Provisions are measured at the present value of the amount expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as interest expense.

Provisions are not recognised for future operating losses.

1.8 Government grants

Grants that impose specified future performance conditions are recognised in income only when the performance conditions are met.

Grants received before the revenue recognition criteria are satisfied are recognised as a liability.

Grants are measured at the fair value of the asset received or receivable.

1.9 Revenue

Revenue comprises revenue income from ratepayers which is collected by the City of Cape Town on the entity's behalf, net of retention revenue retained.

1.10 Finance income

Finance income comprises interest income on funds invested. Finance income is recognised as it accrues, using the effective interest method.

1.11 Unauthorised, irregular and fruitless and wasteful Expenditure

Unauthorised, irregular and fruitless and wasteful Expenditure is accounted for as an expense in the statement of financial performance classified in accordance with the nature of the expense. Where recovered it is subsequently accounted for as other income.
